pess Practice. SPECIAL BRANCHES. Algebra and the Higher Mathemetics, Phonography, Grundwickial Pennanchin, the Act of Detecting Counterfeit Money, Engineeting Surveying, Navigation and Telegraphing,
TELEGRAPHING, TELEGRAPHING.

The parangements for Telegraphing are far more advance of anything of the kind ever effected to the public. A regular Telegraph Line is connected with the lostifiction with twenty branch offices in various parts of the city, where public beasiness is transacted, and in which the students of this Institution are permitted to practice. No regular office practice can be had in any other school of instruction in the country, without which no one can obtain a position as a practical operator. Young may are cantioned against the deceptive representations of those who, without any such facilities, pretent to track Telegraphing.

PATRONAGE This Institution is now antoying the targest patron-ironage ever betsowed upon any Concaercial school in the State. Over five bundres students were in atten-dance the first year, and over seven bundred during the past year. The best class of singents may inva-ctably be found here, and all its associations are first class.

This Institution is located in the most central part BUSINESS OFFICES OR COUNTING HOUSES. TELEGRAPH OFFICE, STATIONARY STORE,
